

February 11, 2026

To whom it may concern,

Towner County Public Health has not spent any funding from the opioid settlement funds as of today. We have not received any funds from our county. Allocation plan was approved by Towner County commissioners on July 9, 2024. We do continue to provide education to our county members on Narcan education as needed as well as continue to maintain our AED's. We will continue to work with our county auditor on getting funds transferred to Public Health to be able to fulfill the plan that was submitted.

Thank you,

Majusta Kleven, RN
