

Annual Antimicrobial Stewardship Program (ASP) Report

Highlights of ASP Initiatives in 20xx

- List goals for the year

ASP-Related Outcomes in 20xx

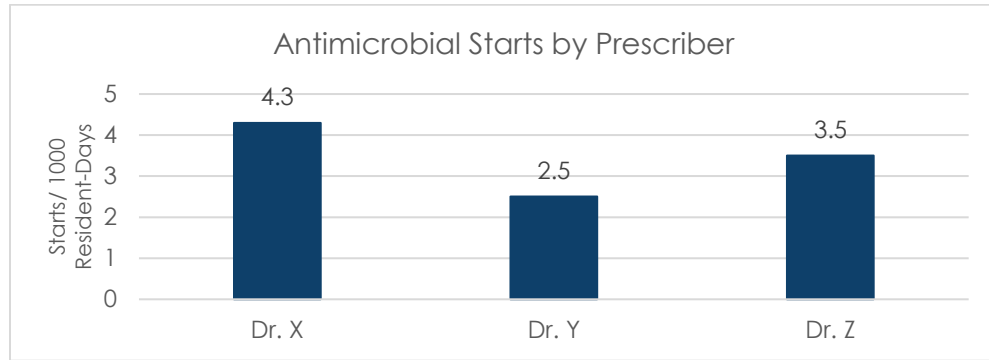

- Adherence to Antimicrobial Prescribing Documentation Guidelines:*
 - Total Number of Antimicrobials Prescribed:
 - Average/Median duration of antimicrobial therapy:
 - Percentage of antibiotic courses with a completed 72-hour time out review:
 - Total Number Antimicrobials Missing ≥ 1 required elements: __ (__%)
 - Dose: __ (__%)
 - Duration: __ (__%)
 - Indication: __ (__%)
- Antimicrobial Use Measures Compared to 20ww*
 - Antibiotic Starts/1000 resident-days: __ % lower/higher
 - Days of therapy/1000 resident-days: __ % lower/higher
 - Clostridium difficile* rate: __ cases/10,000 resident days, increase/same/decrease
- Antimicrobial Use Comparison: 20ww to 20xx

	20ww	20xx
New Antibiotic Starts / 1000 Resident Days		
Days of Therapy/ 1000 Resident Days		
Top 3 Antibiotics with Highest Days of Therapy/1000 Resident Days	1. Sample ABX 1: __ 2. Sample ABX 2: __ 3. Sample ABX 3: __	1. Sample ABX 1: __ 2. Sample ABX 2: __ 3. Sample ABX 3: __
Top 3 Indications for Starting Antibiotic Therapy	1. Indication 1 (__ %) 2. Indication 2 (__ %) 3. Indication 3 (__%)	1. Indication 1 (__ %) 2. Indication 2 (__ %) 3. Indication 3 (__%)
<i>Clostridium Difficile</i> Infection Cases / 10,000 Resident Days		

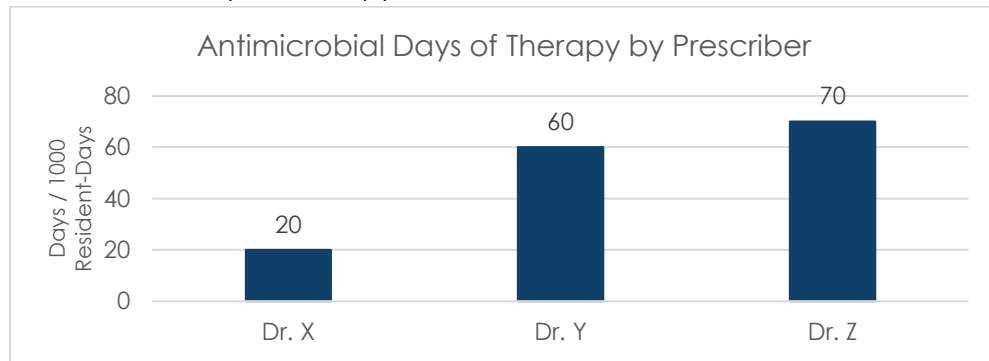

Antimicrobial Stewardship Report for Long-Term Care Facilities

4. Prescriber Antimicrobial Use Comparison

a. Antimicrobial Starts

b. Antimicrobial Days of Therapy

Proposed ASP Activities for 20yy

- List activities facility is working on or goals for the upcoming year
