

POLICY: <i>RTTDC - Trauma Training Grant Funds Distribution</i>	AREA: <i>Trauma, Grant Distribution</i>	DATE CREATED: August 2019
RESPONSIBLE: <i>Trauma Coordinator</i>		DATE REVISED: July 2025

A. Purpose

This policy outlines grant eligibility and application requirements for specific funds appropriated to the Emergency Medical System Unit to administer to level I or II trauma centers for coordinating a Rural Trauma Team Development Course (RTTDC) for level IV or V trauma designated hospitals with the intention of reducing financial barriers associated with making trauma skills training more accessible for rural healthcare providers.

B. Grant Eligibility and Application Requirements

- Coordination of a RTTDC course must be completed by a level I or II trauma center to assist with training of rural healthcare providers practicing within level IV or V trauma designated hospitals.
- Request for grant funding must be made through the Program Reporting System (PRS).
- A copy of each of the following must be submitted with the completed application form:
 - Signed participant roster
 - Course agenda including the following information:
 - Name of hospital
 - City
 - Date of course
 - Name of instructor(s) utilized

C. Disbursement

- Disbursement in the amount of \$6,250.00 may be made by the EMS Unit to a requesting trauma center provided the eligibility and application requirements are met in their entirety.
- Suggested reimbursement amounts for funds provided by the EMS Unit to the applying trauma center are as follows:

Course Coordinator.	\$ 900
Nurse/Paramedic Instructors.	\$ 400 each
Physician Instructors.	\$1000 each
Equipment/Textbooks/Mileage/Additional Expenses.	Remainder of funds/in-kind

- Grants will be distributed in the order complete and eligible applications are received by the EMS Unit until all grant funds have been dispersed.
