

## School Nursing Services

### Public Comment Summary

ND Medicaid posts updates to provider and coverage policies for a period of two (2) weeks to allow providers and the public to comment on the policy updates. This is a summary of the comments and responses for the School-Based Services policy, posted June 8, 2026. The proposed change would add three school nursing codes including:

- T1001 (IEP, 504, or Individual Health Plan (IHP))
  - Nursing assessment or evaluation
- T1002 (IEP, 504, or IHP)
  - RN services, up to 15 minutes
- T1003 (IEP, 504, or IHP)
  - LPN services, up to 15 minutes

Thank you for participating in the public comment process.

### Feedback and Responses

I agree with addendums to covered services. I would also add CPT 96160, ICD-10 Z02.89 for administration of health-related screening tools.

Response: Thank you for your feedback.
