Other approved revisions include:

- changes to provider qualifications for care coordination, benefits planning, prevocational training, supported employment, and supported education;
- revisions to eligibility requirements in an effort to serve more Medicaid members;

What is a waiver?

- North Dakota waivers are called Home and Community-Based Services (HCBS) Waivers
- They allow people who might have to live in a facility the services they need to stay in their communities.

- Waivers provide extra services for people with certain health conditions such as:

*People have to apply for a waiver and be accepted.
