Section 4: WHODAS 2.0 Assessment

The World Health Organization Disability Assessment Schedule (WHODAS) is the tool used for assessment of needs-based eligibility and is required as part of the 1915(i) eligibility determination process. The WHODAS assessment must be completed via a face-to-face interview or face-to-face interview by proxy if necessary.

Individuals completing this section must meet the requirements of an "independent, trained and qualified" administrator as defined by the State. If the diagnosing professional is not an "independent, trained and qualified" WHODAS administrator, please refer the applicant to a Human Service Zone for completion of the WHODAS assessment.

The application must contain the WHODAS 2.0 assessment and scoring information; and name, contact information, verification of "independent, trained and qualified" status, and signature of the WHODAS administrator. The WHODAS 2.0 assessment and 1915(i) scoring sheet must accompany the application. A printout of the applicant's Human Service Center Electronic Health Record containing the WHODAS scores may be attached to the application as a substitute for the required 1915(i) score sheet.

See the instruction guide on Page 11 of this application and visit www.hhs.nd.gov/1915i/trainings for links to the correct scoring sheet and specific instructions for completing the WHODAS assessment.
