# Food & Lodging Unit - Mobile Food Unit Licensing and Reciprocity

**Reciprocity:** when a state or local health agency licenses an in-state mobile food unit (MFU) operator in North Dakota and another agency allows that MFU to operate in their jurisdiction without an additional license. Each local health agency, city, or county may have additional requirements.

**Base of operations:** location or commissary where mobile food unit returns for services such as cleaning, waste discharge, and storage of food or supplies
