

NDHAB (HIV PREVENTION AND CARE BOARD)

Meeting Minutes

August 26, 2023

In Attendance: Khadija Mustafa, Johanna Fajardo, Agnes Mason, Kaitlin Weiss, Luisa Hoyos, Jordan Beyer, Payton Drent, Russell Campillo, Alicia Belay, Geegee Jargba

Integrated Plan review with board. Discussions for each pillar: Diagnose, Treat, Prevent.

Diagnose:

1. Work on making Spanish flyers or translating current fliers to use for at-home testing fliers seen in our target counties (Adams, Bowman, Foster, Wells, McIntosh, Mercer, and Sioux)
2. Workforce resources - massive public campaigns: send at-home testing fliers to HR of companies to distribute in bathrooms and in buildings
3. Talk to oil companies to see if posting fliers can be posted in bathrooms
4. Include education on QR codes on fliers so both testing and education can be included

Treat:

1. Integrate Spanish as a second language in TAVIE and for services in Canopy? Language is a barrier for testing and services, so this would help reduce this disparity.
2. First step before integrating Spanish is to build app and expand.

Prevent:

1. Share link for condom distribution site
2. Reach out to HR directors of companies for condom distribution – look at condom distribution data sheet

To Do list:

- Come together and make condom kits as a group
- Offer harm reduction trainings in schools (contact NDSU for HIV education, PrEP education, access, referral, and availability: Payton and Khadija apart of education)
 - Payton and Khadija will talk to their professors to see what they think
- Email Lindsey about HIV testing on-campus and in the Fargo-Moorhead area
- Agnes work with PTO's at schools for sex ed.
- Send epi report to Kaitlin Weiss (completed 8.29) and get case manager info from her
- Approve logo (logo 5 was voted for)

Meeting notes finalized and formatted by Brandy Chap, Administrative Assistant
