★ Required for enrollment in child care

☆ Recommended at age 4-6; required for school-aged children/kindergarten entry

*Depending on brand, [3 or 4 doses of Hib vaccine](#) and [2 or 3 doses of rotavirus vaccine](#) are required.

This document contains only immunizations that are required for child care and school attendance and does not include all recommended vaccines. Depending on several factors, more doses/fewer doses may be given or required. Parents and guardians should consult with a health care provider to ensure their child is up-to-date. For more information about immunizations, including exemptions, please refer to the [North Dakota Department of Health and Human Services Website](#).

*This document is to be used for reference only and is **not** an official certificate of immunization.*
