

Product Types

Types of usable marijuana under the North Dakota Medical Marijuana law are:

1. Dried Leaves and Flowers – Adults only
2. Cannabinoid Concentrates or Extracts. Examples of concentrates include vapes, wax, shatter, budder, RSO and PDO.
3. Medical Cannabinoid Products
 - a. Solutions
 - b. Capsules
 - c. Transdermal Patches
 - d. Topicals
 - e. Edibles

Exceptions for Minor Patients (those under the age of 19):

1. Minors cannot have dried leaves and flowers
2. Minors cannot have any product with >6% THC

Purchase Limits

Patients and designated caregivers with a valid ID card can purchase the following in a 30-day period from a North Dakota registered medical marijuana dispensary:

1. Up to 2.5 ounces dried leaves and flowers
**Enhanced Amount: patients with the debilitating medical condition of cancer may be authorized by their health care provider to purchase up to 6 oz. of dried leaves and flowers.*
2. Up to 6,000 mg THC total of other products
 - Included in the 6,000 mg of THC is a cannabinoid edible product that has a daily purchase limit of 310 mg of THC per day.

Patients can check their “**limit meter**” by logging into the registration system and clicking on the button that looks like a battery (see image below) on the top of the screen:

Possession Limits

Patients and designated caregivers with a valid ID card may possess the following:

1. Up to 3 ounces of dried leaves and flowers purchased from a North Dakota registered medical marijuana dispensary
** Enhanced Amount: patients with a debilitating medical condition of cancer who have been authorized by their health care provider may possess up to 7.5 ounces.*
2. Up to 500 mg of THC in a cannabinoid edible product purchased from a North Dakota registered medical marijuana dispensary (no other possession limit exists for concentrates and other medical cannabinoid products)
