

North Dakota Immunization Information System: Influenza Coverage Rate Report

The Influenza Coverage Rate Report allows providers to run a report to assess influenza vaccine coverage rates for their provider site for a specific influenza season.

How To Run an Influenza Coverage Rate Report:

1.) The Influenza Coverage Rate Report is located under the Coverage Rate Reports report type in the NDIIS reports module

The screenshot shows the 'Reports' module interface. At the top, there is a 'Help' button. Below it, there are tabs for 'Saved Reports' and 'New Request'. A message reads: 'Please select a report type to view the detailed report criteria selection menu.' The 'Report Type:' dropdown menu is open, showing options: '-- SELECT ONE --', 'Coverage Rate Reports', 'Pandemic Preparedness Reports', 'Patient Management Reports', 'Provider Inventory Reports', and 'Smallpox Response Reports'. A red circle highlights 'Coverage Rate Reports'. A red arrow points from this circle to a second screenshot of the 'New Request' form. In this second screenshot, the 'Report Type:' dropdown is set to 'Coverage Rate Reports'. The 'Report:' dropdown is open, showing options: 'Coverage Rate', 'Influenza - Coverage rate', 'Missed Opportunities', and 'Non-Compliance Survey'. A red circle highlights 'Influenza - Coverage rate'. Below the 'Report:' dropdown, there is a field for 'Min Age:' and a 'BirthDate' field.

2.) Enter either a minimum and maximum age (in years or months) or a starting and ending birthdate range to search for a group of clients

- If using the minimum and maximum age option,
 - the **Age In** option must be identified to look for age in months or years
 - the **Age As Of Date** must be filled in to specify the date at which the client's age should be assessed by. This field will default to today's date.
- * *It is recommended that either the starting dose date or ending dose date be used for the **Age As Of Date***

Enter Selection Criteria & Values | Fields Appearing with an Asterisk (*) Are Required.

* Min Age: <input type="text"/>	* Starting BirthDate: <input type="text"/>
* Max Age: <input type="text"/>	* Ending BirthDate: <input type="text"/>
* Age In: <input type="text" value="Years"/>	* Dose Date Range: <input type="text"/> <input type="text"/>
	* Age As Of Date: <input type="text"/>

3.) Select a **Report By** option to specify whether the report should include patients based on county of residence or patients who belong to your provider site in the NDIIS

* Report By:

Last Provider:

County

Provider

- If running the report by county, use the **Add** and **Remove** buttons to select the county or counties you would like included. **Add ND Counties** allows for all ND counties to be added at once. Click the **OK** button to close this window.

SelectionCounty

Counties		Selected Counties
ADAMS	Add Add ND Counties Remove Remove All	
BARNES		
BENSON		
BILLINGS

OK Cancel

- If searching for clients by provider, use the **Add** and **Remove** buttons to add your provider to the right Provider column. Click the **OK** button to close this window.

The screenshot shows a dialog box titled "SelectionProvider". It contains two list boxes, both labeled "Providers". The left list box has one item: "4933 - SANFORD CHILDREN'S FAR". Between the two list boxes are three buttons: "Add", "Remove", and "Remove All". At the bottom of the dialog are "OK" and "Cancel" buttons.

5.) After selecting the client population for the report, indicate the number of doses of influenza vaccine per client to be assessed

The screenshot shows a dropdown menu for "Doses Received:". The menu is open, showing the following options: "-- SELECT ONE --", "1 Dose", and "2 Doses".

6.) Select **Run Now** or **Run Later** to run your report.

The screenshot shows two buttons: "Run Now" and "Run Later".
