NORTH DAKOTA OCCURRENCE
INDUCED TERMINATION OF PREGNANCY
DATA

It should be understood that all data, concerning induced termination of pregnancy reported by the North Dakota Department of Health, Division of Vital Records, is based on events that occur within North Dakota only. North Dakota participates in a Vital Events Exchange Agreement with the rest of the United States and Canada to exchange information on vital events. North Dakota birth and death events occurring out of state are reported back to the Division of Vital Records on a regular basis. Induced termination of pregnancy is not included in this agreement.

Because no complete number of resident events is available, no rates are calculated. If the reader is interested in ratios, based on the number of live births or pregnancies, he should contact the Division of Vital Records at the contact information listed on the cover of this report.

To insure confidentiality of the individual, cross tabulation of this sensitive data set is limited. If requesting further data, no values that occur less than five times are reported.
