

## PROTOCOL FOR TEMPORARY MEDICAL LICENSURE FOR DISASTER RESPONSE

License provided will be a locum tenens good for three months.

For personnel identified through EMAC:

1. EMAC documentation which lists name of individual to be provided an in-state license
2. A copy of a current license card with expiration date (e.g., wallet card)
3. A list of all current states of licensure with license number
4. A list of all prior states of license with license number.

For federal personnel<sup>i</sup>

1. Documentation of current assignment with federal agency (contract or personnel order or letter of assignment)
2. A copy of a current license card with expiration date (e.g., wallet card)
3. A list of all current states of licensure with license number
4. A list of all prior states of license with license number.

---

<sup>i</sup> Federal providers can practice in the state without a state license within the scope of their federally assigned tasks, but state licensure is recommended.
