Professional Development Action Plan

Research consistently shows that professional development is an important indicator of quality in early care and education. This research suggests that educated and trained caregivers generally provide more developmentally appropriate, nurturing, and responsive care, resulting in better experiences for children. When you plan your professional development, it allows you to grow your knowledge and skills through meaningful, intentional training and education.

DETAILS

Credentials, Certificates, Diplomas and Training Verification

The North Dakota Early Childhood Workforce Registry, *Growing Futures*, is the source for training, education, and employment verification. All training must appear on an individual's Growing Futures Learning Record as approved clock hours.

Turnover in Lead Positions

Programs that are currently in a Bright & Early ND cohort and experience turnover within the 90 days prior to submitting their Quality Standards Inventory must use the Professional Development Action Plan with all newly hired Lead employees. This includes the following positions: Program Director, Lead Teacher or Lead Caregiver.

This allows the newly hired employee time to accomplish the requirements of licensing and those of the program's Bright & Early ND Step goal. This plan is to be completed by the employee and will be used as evidence to verify Professional Development requirements for Bright & Early ND. All goals and action items must be within 1 year of the employee's hire date.
