## **VR Interim Director Update - Jim Fleming**

Training was given from Child Support to Vocational Rehabilitation staff to better integrate the process for suspended drivers' licenses for nonpayment of child support.

The Legislature has convened. A change of Governors makes program budgets more complicated.

The VR Interim Director, Jim Fleming, will present testimony for VR in early February. He will be presenting on HB1012, which includes the VR budget and HB 1066, which relates to the minimum wage paid by the Department of Health and Human Services under the Senior Community Service Employment Program, which is under VR.

The federal government is being funded by a continuing resolution – no new money, including no inflationary adjustments to the VR grant.

The budget assumes a three percent increase in federal grant dollars and the corresponding increase in state funds to draw down the full grant.

Compression of program funding creates a heightened need for savings in all aspects of program operations. Exploration of outside revenue or additional reimbursements and the possibility for remote staff in Region III (Devils Lake).
