

Community Health Worker Task Force Timeline

To engage and consider input from all those who have an interest in the community health worker profession, the CHW Task Force invites you to submit written comments regarding the development of this profession.

The timeline listed below outlines all upcoming CHW regular meeting dates and specifies when each topic will be addressed. The Task Force would like to hear from you if you have opinions or suggestions regarding one (or all of these topics).

Agendas are developed two weeks prior to meetings. Timely suggestions for agenda topics submitted at least two weeks prior to meeting dates will be considered as appropriate. Suggestions can be emailed to the Task Force facilitator Brian Barrett at Brian@aptnd.com.

It is important to understand that written comments will NOT replace public comments during CHW Task Force meetings. The opportunity for public comment will continue as normal.

If you have any questions or concerns, please contact Brian Barrett using the above email address.
