## How to obtain an NPI

Obtain a **[National Provider Identifier \(NPI\) number](#)**.

- [Create an NPI number here](#)
- Find the Group Taxonomy [group-provider-type-specialty-taxonomy-values.pdf](#)
- Find the Individual Taxonomy Codes: [individual-provider-type-specialty-taxonomy-values.pdf](#)
- [NPI Application Instructions](#)

*If a provider has previously been issued an NPI, they will not apply for a new one, rather they will need to ensure their existing NPI is updated to reflect the proper taxonomy codes for the services they will be enrolling to provide.*
