Medical Services	<p>Medical services provide medical examinations, evaluations and when appropriate medical stabilization on all incoming persons entering the DOCR system. Routine on-going and emergent medical, dental, and psychiatric health care is also provided to all persons housed at DOCR facilities. Telemedicine clinics for infectious disease, primary care, and psychiatry are hosted and conducted at the North Dakota State Penitentiary (NDSP) between all DOCR adult facilities. The James River Correctional Center (JRCC) houses the special assistance unit which provides psychiatric and medical care to adult male offenders with mental health or behavioral needs in a correctional therapeutic environment. The medical needs of juveniles under the care and custody of the DOCR are addressed at the Youth Correctional Center (YCC).</p>	Juvenile Services, Corrections & Rehabilitation, Department of	Individual Who Is Incarcerated	Universal Medical Care	Improved physical and behavioral health	Direct Care; Care Coordination; Prevention
Juvenile Services, General	<p>Division of Juvenile Services (DJS) provides intensive case management for youth committed to the agency's care, custody and control. North Dakota Juvenile Courts are able to transfer custody from a parent to the DJS as a disposition for adjudicated delinquent youth. DJS has two primary subdivisions; community corrections case management supervision and secure care through the North Dakota Youth Correctional Center (NDYCC). Treatment and rehabilitation is accomplished primarily through the DJS intensive case management model.</p>	Juvenile Services, Corrections & Rehabilitation, Department of	Youth Who Is Adjudicated Delinquent	Correctional System Determination	Safe Environment; Support Services; Medical and Behavioral Health Services	Direct Care; Care Coordination; Prevention
Juvenile Corrections Specialist	<p>Supervises the case and works to further the goals of the treatment plan. The JCS develops a community placement agreement for youth who remain in their home or arranges for a suitable out-of-home placement somewhere along the continuum of care. The continuum of care includes foster homes, treatment foster care, residential care, psychiatric residential care, psychiatric hospitalization, and inpatient substance abuse and dependency treatment.</p>	Juvenile Services, Corrections & Rehabilitation, Department of	Youth Who Is Adjudicated Delinquent	Correctional System Determination	Safe Environment; Support Services; Medical and Behavioral Health Services	Direct Care; Care Coordination; Prevention

Case Management Services (Juvenile Corrections Specialist)	Operates through eight regional offices across the state. Juvenile Corrections Specialist works collaboratively with the local juvenile court, county social services, law enforcement, private human service agencies and schools to provide individualized rehabilitative programming for youth. JCS work with residential facilities, foster homes, and the NDYCC that are located across the state.	Juvenile Services, Corrections & Rehabilitation, Department of	Youth Who Is Adjudicated Delinquent	Correctional System Determination	Safe Environment; Support Services; Medical and Behavioral Health Services	Direct Care; Care Coordination; Prevention
Intensive In-Home Therapy	Intervention services for youth that may not be under the agency's custody. Uses high quality professionals to provide family-based services that will strengthen the family unit and promote self-sufficiency. The program has a high success ratio based on the prevention of out-of-home placements and/or further involvement with the juvenile justice system.	Juvenile Services, Corrections & Rehabilitation, Department of	Children; Youth; Families	Correctional System Determination	Safe Environment; Support Services; Medical and Behavioral Health Services	Direct Care; Care Coordination; Prevention
Day Treatment Programs	Day Treatment Programs. Day Treatment Programming provides school-based treatment for students who are at-risk of out-of-home placement or more restrictive placement because of their behaviors. The program provides assessment, counseling, anger management, social skills training, behavior management, and academic remediation. These programs provide needed services that prevent youth from entering or further penetrating the juvenile justice system, or on the "back side" as youth re-enter their home communities following an out of home placement.	Juvenile Services, Corrections & Rehabilitation, Department of	Children; Youth; Families	Correctional System Determination	Safe Environment; Support Services; Medical and Behavioral Health Services	Direct Care; Care Coordination; Prevention
Youth Correction Center	YCC provides rehabilitative and educational programming in a secure setting for youth under DJS custody. Specialized contracts allow for the placement of Federal Bureau of Prisons (BOP) as well as youth from some other states. It also serves as the local detention facility for pre-adjudicated youth. Over the course of their treatment, youth may require the use of a number of programs in multiple levels of care, within the least restrictive environment. Performance-Based Standards	Measures outcomes and provide a basis for continuous quality improvement and planning. Gathers critical outcome data for assessment, detention and the long-term care program. Allows the YCC to compare itself to other state youth corrections and detention facilities across the country. YCC develops facility improvement plans that modify traditional correctional practices to better accommodate the increasing numbers of youth with serious and multiple mental health and behavioral health issues.	Juvenile Services, Corrections & Rehabilitation, Department of	Service Providers	Compliance Monitoring	Standardized Care Practices	Compliance Monitoring
Volunteer-Based Programs	Volunteers assist with many of the overall goals and objectives and are active both in the community corrections offices as well as on the YCC campus. Research shows that engagement with positive, prosocial adults is a powerful corrective force in young lives. Volunteers visit the buildings and play board games, cards, table tennis, etc., and engage in positive relationship-building conversations with the youth. Youth are able to attend chapel services, and volunteers support this weekly activity as well. Volunteers, together with campus staff, were able to take some youth off campus to baseball games.	Juvenile Services, Corrections & Rehabilitation, Department of	Youth Who Is Adjudicated Delinquent	Correctional System Determination	Safe Environment; Support Services; Medical and Behavioral Health Services	Direct Care; Care Coordination; Prevention
Internships	Internships account for thousands of volunteer hours, providing opportunities for students supports work force development, including rich and varied environments for young professionals to increase their practical skills and knowledge. Social work and criminal justice interns work in the cottages and with the community case managers in various regions of the state. Interns also work in the school, with the licensed clinical counselors, and with the medical staff. Case Management Audit Service	Case management activities undergo random case file audits, under the Children and Family Service Review process outlined under federal child welfare regulation. These audits are completed by teams of external auditors and are conducted annually in each of the 8 service regions. In addition, DJS completes annual internal audits that include file review, interviews with families and youth, and interviews with system stakeholders.	General Services, Corrections & Rehabilitation, Department of	Service Providers	Compliance Monitoring	Standardized Care Practices	Compliance Monitoring
Prison Rape Elimination	Provide training and facilities inspections to eliminate rape incidents. Conduct research, design, presentation, and evaluation of training programs to provide a safe and secure environment, compliant with state and federal laws and guidelines. Federal Prison Rape Elimination Act (PREA) standard §115.402 specifies that audits shall be conducted by an independent auditor certified through the Department of Justice training process. The Prison Rape Elimination Act of 2003 (PREA, P.L. 108-79) was enacted by Congress to address the problem of sexual abuse of persons in the custody of U.S. correctional agencies.	General Services, Corrections & Rehabilitation, Department of	Individual Who Is Incarcerated; Service Providers	Universal Compliance Monitoring	Safe Environment; Support Services; Medical and Behavioral Health Services	Compliance Monitoring
Transitional Facilities and Programs	Transitional facilities and opportunities are an integral part in successfully implementing the re-entry phase of the Transition from Prison to Community Initiative (TPCI). Transitional Facilities staff works in collaboration with community partners to enhance re-entry opportunities for residents and develop an effective continuum of correctional services. Evidence-based programming and services assisting in recidivism reduction and targeting criminogenic risk and needs are provided at all transitional facilities.	Adult Services, Corrections & Rehabilitation, Department of	Adults re-entering community from prison	Correctional System Determination	Safe Environment; Support Services; Medical and Behavioral Health Services	Direct Care; Care Coordination; Prevention
Facilities Compliance Monitoring	Annual inspection of each facility, ensuring compliance with North Dakota Correctional Facility Standards. During the on-site portion of the inspection a complete tour of the facility is completed, staff and inmates are interviewed and correctional practices are observed. Areas of review include health care, discipline, special management, staff training, prison rape compliance procedures.	Adult Services, Corrections & Rehabilitation, Department of	Individual Who Is Incarcerated; Service Providers	Universal Compliance Monitoring	Safe Environment; Support Services; Medical and Behavioral Health Services	Facilities Compliance Monitoring

PROGRAM TITLE	PURPOSE	LEAD PROVIDER	TARGET	ELIGIBILITY	OUTCOME IMPACT	PROGRAM
Correctional Program Checklist	Assessment developed by the University of Cincinnati's Corrections Institute incorporating principles of effective correctional management. Conducts a detailed review of programming and services offered at a facility, comparing it to the practices with the research literature on best practices in corrections. A number of Transitional Facilities providing substance abuse and cognitive behavioral programming are audited.	Adult Services, Corrections & Rehabilitation, Department of	Service Providers	Compliance Monitoring	Standardized Care Practices	Compliance Monitoring
Release and Integration Program	Provides mentally ill residents continued services for individuals returning to their communities from prison. Coordinates all DOCR residents meeting the criteria a continuum of care with community resources to ensure aftercare needs are met.	Adult Services, Corrections & Rehabilitation, Department of	Individual Who Is Incarcerated; Service Providers	Correctional System Determination	Safe Environment; Support Services; Medical and Behavioral Health Services	Direct Care; Care Coordination; Treatment
Level of Services Inventory	An assessment tool used to identify the risk factors that will be addressed in an effort to reduce the risk to reoffend. If a parolee identified for a sexual offense, additional assessments will also be administered, including STATIC-99, ACUTE, and STABLE. Comprehensive case management plans are prepared that address these risk factors, including any special conditions that may be imposed by the courts or Parole Board. Supervision levels are assigned based upon the score of the risk assessment, and the type of offenses involved.	Adult Services, Corrections & Rehabilitation, Department of	Parolee	Correctional System Determination	Safe Environment; Support Services; Medical and Behavioral Health Services	Direct Care; Care Coordination; Treatment
Drug Court	Divert offenders from entering the correctional system by providing intensive supervision and treatment services. Every offender accepted into the Drug Court meets with a team weekly in court, as well as frequent contact with an assigned Probation Officer. The court holds participants accountable and at the same time gives them the opportunity, support and structure to improve their lives and benefit those around them - children, family, friends, and community. Proven to be an effective alternative for offenders that are willing to make the commitment. These programs have made a significant impact on the number of offenders that may have potentially entered the DOCR correctional system.
